A: United American Technology, Inc. ("UAT"). I am its Chief Executive Officer.

Q: Please provide a brief background on your experience in telecommunications.

A: Prior to being named CEO of UAT in 2003, from 1999-2003 I was employed by long distance provider, PromiseVision Technology, Inc., as Director of Operations. As Director of Operations of PromiseVision, I was responsible for coordinating technical, administrative, regulatory and business operations of the company. Before that, from

1993-1999, I was Vice President of Sales at AmeriVision Communications, Inc. As Vice President of Sales of AmeriVision, I managed several major customer accounts, including: Concerned Women for America, Christian Broadcasting Network, Christian Coalition, Trinity Broadcasting Network and Jay Sekulow Live. My duties included day-to-day supervision of customer sign ups and complaints. I was responsible for providing detailed reports of daily activities on behalf of various organizations. In addition, as Vice President of Sales, I was responsible for overseeing a staff of sales people.

In total, I have been employed in the telecommunications field for over ten (10) years. In this time, I have developed an understanding and working knowledge of the complex and ever-changing telecommunications industry in which UAT operates.

UAT also utilizes experienced telecommunications legal counsel and consultants when such assistance is required. As CEO, I am responsible for overseeing and monitoring the work performed on UAT's behalf by these experts.

A: Yes.

Q: Do you ratify and confirm the statements and representations made in that Application?

A: Yes.

UAT's customer service personnel will respond either in person or via telephone as soon as possible but no later than 24 hours from receipt of inquiry.

A: UAT was incorporated in the State of Oklahoma on October 28, 2003.

Q: Does UAT have offices in Illinois?

A: No.

Q: Why has UAT filed this Application?

A: UAT's telecommunications offering will be beneficial to small business users and residential customers across the nation. UAT desires to obtain state certification in all states in order that its intrastate service offerings comply with all state regulatory requirements.

Q: Will UAT provide intraLATA service?

A: Yes.

Q: Does UAT provide conventional or alternative operator services?

A: No.

A: Yes. UAT is certified or otherwise registered and thereby authorized to offer long distance service in Michigan, New Jersey, Montana, Florida, Kentucky, New Hampshire, Utah and Washington. UAT is in the process of applying for certification or registering in an additional 35 states.

Q: Do you believe that your principal managerial and technical personnel have the qualifications and technical ability necessary to provide the proposed intrastate services?

A: Yes I do. Attached to this testimony as Attachment 1 are the resumes of principal managerial personnel. UAT has competent and experienced management. Through its close relationships to its underlying carriers, UAT also has access to the technical

personnel necessary to provide successful and continuous telecommunications services in Illinois.

Q: Does UAT have the financial qualifications to operate as a carrier in Illinois?

A: Yes. *See* Exhibit 7 of UAT's Application for verified financial statements for year ending December 31, 2003. As set forth therein, UAT has sufficient revenue and cash resources to support expansion of its operations to Illinois.

Q: In your opinion, why is UAT's service in the public interest?

A: UAT's proposed service will provide alternative services of the highest quality, will provide increased consumer choice in billing options, and will offer increased diversification and increased reliability of communications services. Our service offerings will enhance competition for telecommunications services in this state because the addition of another supplier of telephone service will increase competition in terms of price and quality of service for the business of telephone service consumers.

Q: Does UAT currently offer intrastate telecommunications services in Illinois?

A: UAT will not market or offer intrastate telecommunications service until certified.

Q: Does this complete your prefiled testimony in support of your Application?

A: Yes, it does.
